AFFAIRS OF THE DISTRICT

Removal of Refuse by Private Parties Reported Adversely.

ing Refers to Past Experience-Fire Losses for August-Improve. ment of Eastern Market Grounds.

Warner Stutjer, the Superintendent of Street Cleaning, yesterday forwarded to Commissioner Ross his report upon the communication of Gerald H. Dupont relative to the removal of garbage from the National Hotel. The statement of Mr. Dupont was to the effect that he had bought the refuse from this hotel, and that he had arranged to remove it in tight cans, which he would convey be-yond the District limits, where they would be emptied and cleaned, Mr. Stutier says:
"I beg to state that on June 6, 1900, the

current appropriation act was approved, which required that all garbage collected in the District under this appropriation should be disposed of through a reduction and consumption process, subject to the sanitary inspection and approval of the Commissioners. The same law required that all contracts shall expressly provide that no garbage or other vege table matter shall be dumped into the Po-tomac River or in any other waters, fed to animals or exposed to the elements on

"In conformity with this act all permits to private collectors were revoked on May 1, 1961. The question with regard to the right of the Commissioners to prohibit the collection of garbage by private per-sons was made the subject of an opinion by the Attorney for the District, who held that all such permits could be revoked. Since the effort of the Commissioners to comply with the law and the terms of the contract by revoking all permits, frequent appeals have been made for permits by private collectors, all of which hereto-

fore have been refused.
"Under these circumstances I could not recommend that a permit be granted in this case. There is no doubt that Mr. Dupont handled the garbage in a sanitary way in the city prior to the revocation of way in the city prior to the revocation of his permit, but while he and a few others gave satisfaction in this respect, the majority of private collectors, and I might say nine out of every ten, performed the work in an unsanitary manner."

It is understood that the Commissioners will approve this report and that Mr. Dupont will be informed in accordance therewith.

The Engineer Commissioner has taken issue with the Assessor upon the case of Arms & Drury, of 810 F Street north-west, who requested that the money paid for taxes for 1898 on sub-lot II, square 304 be transferred to sub-lot 23 in the same square without penalty beyond May 31,

sessor took the view that the payment of the tax came within the provisions of the law of May 31, 1898, and should, therefore be refunded.

The Engineer Commissioner in passing upon the papers says: "As the mistake in upon the papers says: "As the mistake in this case appears to have occurred through negligence on the part of the applicants, and through no fault of the District, it would appear that they should present evidence that the tax on lot 21 has been paid by the owner of that lot before any refund is made.

"It is not stated that the owner of lot 21 is willing to pay the tax, and 1 think that the payment of this tax should be made a condition precedent to the refund."

Robert W. Dutton, Chief Engineer of the Fire Department, yesterday submitted to the Commissioners a report of the operations of his office for the month of August. He states that during that month there were 25 bell alarms, one of which was false. The 24 alarms entalled a loss

was false. The 24 alarms entailed a loss of \$1,48, with an insurance on the same of \$1,19. There were also 16 local or silent alarms, the fires which occasioned them causing a loss of \$35, with an insurance of \$365 thereon.

According to the report, the 40 fires which occurred during the month were in 12 brick or stone buildings, 17 in wooden buildings, and one was a dump fire. In one case, Mr. Dutton says, the fire traveled from the first to the second floor, and in another, from one building to another. In one building, two separate and distinct fires are reported, one on the first and one on the third floor, at the same time, with no connection of fire from one to the other.

as a private detective in the District of Columbia has been under consideration and the Commissioners, investigation, showed that Mr. Howard was engaged as a collector, and it was the opinion of the department that the spirit of the law would be violated should he be given a defective and should use and the Commissioners. Investigation he authority thus granted for ordingly Major Sylvester has sent to

the Commissioners a recommendation that Mr. Howard be granted a commission after giving evidence that he has retired from the collecting business and after the filing of the necessary bond.

James A. Dunnington and others have requested the Commissioners to take steps at once to improve the grounds about the Eastern Market and No. 8 engine house, Capt. L. H. Beach, the Engineer Cor ner, lu considering the application ing reported to his associates that an adstruction of a stable in the rear of the english house on this ground, and that it is expected that the work of building will soon begin. Under these circumstances Captain Beach is of the opinion that it is inadvisable to incur the expense of fixing up these grounds until after the debris incident to the building operations has been removed.

Hallam & Hallam, of 458 Louisiana Aveme, recently submitted to the Commisdoners a petition signed by Patrick Crat ty and others in the neighborhood of Sec ond, C and D Streets northeast, complaining of the unsanitary condition of 32 Second Street northeast. The petition was referred to the Health Department, and inspection showed that the complaint was justly made. Dr. Woodward now reports that this case with others will be considered in connection with notices to be issued soon to enforce connection with the public sewer. ond, C and D Streets northeast, co

The New Styles in Boys' Clothing.

New Fall Styles. that's the point of importance. Let us impress it upon you. Shall we say better styles than heretofore? That's for you to decide.

But a greater number, a far greater variety, a much bigger stock than ever.

School Suits, that's the thought uppermost just now in the minds of the boys

and their elders. Let them begin the new school session with new clothes. It will brighten their little faces, cheer their little hearts, give them much confidence, and make them feel

as proud and as big as 'tis possible for one

to feel. Now, as to the Parker-Bridget stock of Boys' and Children's Suits. You know we are as particular in this department as in the men's. The best materials, the choicest patterns, the best workmanship, and the fairest of prices must obtain. They always have, they do now and ever will. Low prices that are not backed up by style

and quality have no charms for us. First consideration is the style and quality point—then comes the price feat-

The combination is a strong one and must win out. An inspection of our line will readily reveal the fact that leadership

centres here. Remember, newness, style, quality, and economy are the elements associated in every offering-from the lowest priced to the highest.

Special attention is directed to our line

of Boys' School Suits at \$3.98. We have exercised great care in selecting this line, having had the object in mind to match any \$5.00 suit shown anywhere else, which they do. Double-breasted Jacket style; of all-wool fancy and checked cassimeres and cheviots in most desirable patterns, also plain blue and black all-wool cheviots. Pants have double seat and

knees. For ages 7 to 17 years.
